## FIT Supervision

The advanced training is specifically designed for mental health professionals seeking practical, empirically-proven methods to enhance their therapeutic effectiveness including: social workers, family therapists, psychologists, psychiatrists, psychiatric and community health nurses, alcohol & drug counsellors, youth workers, sexual abuse counsellors, case managers, probation officers, crisis counsellors. The advanced training is also intended to prepare and support public and private agency managers and directors that are planning to or are already implementing Feedback-Informed Treatment (FIT).

The training will be run by ICCE Director, Scott D. Miller, Ph.D. along with special guest contributor, ICCE Senior Advisor, psychologist Susanne Bargmann

Through a combination of didactic presentations, skill building exercises and feedback, participants will learn:

- Empirical foundations of Feedback Informed Treatment (FIT).
- Evidence-based skills for improving client engagement and decreasing dropout rates in treatment services
- How to integrate real time outcome and alliance feedback into clinical practice
- How to measure and improve clinical effectiveness of individual clinicians, agencies, and larger systems of care
- How to develop and execute an evidence-based plan for improving the quality and outcome of treatment

The training will mostly be in English; however, Scott Miller speaks and understands Swedish (and some Danish). Susanne Bargmann will also be of assistance translating during the workshop.

### Venue
